# RESERVATION GUIDE AND RECOMMENDATIONS FOR THE VISIT

## How many bookings can a single person make?

Only **one reservation can be made per person per day**. In addition, reservations are **non-transferable**, so that one person's reservation cannot be used by anyone else.

## How much advance do you have to book?

It is recommended to book in advance, but you can make telematic reservations for the same day. **At most you can book one month in advance.**

## What time can I go?

Once you have the reservation **you can come any time during that day**, except at night.

## Is the reservation needed all year?

Yes, since the restriction of 300 people per day applies every day of the year.

## Do children without ID card need to book?

Yes. Every person needs to have a reservation, but if children don't have any ID document **we select PASAPORTE as a type of document and we make up a number in IDENTIFICACIÓN.**

## Recommendations

- Being a route with complicated stretches, it is necessary to wear mountain shoes or similar.
- Bring water, as there is no source of the route.
- From the tunnel, it is not recommended to continue to those under 18, due to the danger of the path.
- Dogs have to keep on a leash at all times.
- With rain or fog, it is not recommended to continue from the tunnel.
